Singhal Paints Protection Acrylic Emulsion

Singhal Paints Protection Acrylic Emulsion provides a very smooth finish to the wall. A very suitable replacement for Distempers.

Singhal Paints Protection Acrylic Emulsion is an acrylic emulsion paint that offers excellent smoothness to touch and an elegant rich finish. It has a longer life span than distemper and is durable. A good replacement for distempers with hardly a cost difference.

Singhal Paints Protection Acrylic Emulsion is a wall finish that can be applied onto all types of smooth plasters, ceilings, asbestos sheets, concrete etc. Protection should not be applied on roof tiles or damp surfaces prone to seepage.

Cleaning: Ensure that the surface is free of any loose paint, dust or grease. Any previous growth of fungus, algae or moss needs to be removed first by wire brushing and cleaning with water.

Filling: Imperfections in the surface like holes, dents fine cracks etc. are to be filled with Putty, or a mixture of cement and sand (3:1)

All freshly plastered surfaces are to be allowed to cure first.

For removing stains after application, sponge clean with a mild soap solution and wipe clean.
